You can re-attempt the exam after 14 days. You can review exam preparation resources on the AWS Certification [website](#).

As a reminder, you are bound by the [Candidate Code of Conduct](#) you accepted when taking your exam, and you are expected to keep the contents of the examination secure. If you have any questions or require assistance, please [contact us](#).

Thank you,

AWS Training and Certification

AWS Certified Advanced Networking - Specialty

Breakdown of Exam Results

The information in the table below details the composition of the AWS Certified Advanced Networking - Specialty and your performance in each of the exam sections. The table includes the classifications of your performance at each **section level**.

This information is designed to provide general feedback concerning your examination performance. The examination is scored using a compensatory scoring model, which means you do not need to “pass” the individual sections. Please keep in mind that each section has a specific weighting on the examination, so some sections have more questions than others. This information is general in nature, highlighting your strengths and weaknesses.

Meets Competencies: Performance at this level demonstrates knowledge, skills, and abilities expected of a passing candidate.

Needs Improvement: Performance at this level does not demonstrate knowledge, skills, and abilities expected of a passing candidate.

Section	% of Scored Items	Score Performance	
		Needs Improvement	Meets Competencies
Domain 1: Network Design	30%		
Domain 2: Network Implementation	26%		
Domain 3: Network Management and Operation	20%		
Domain 4: Network Security, Compliance, and Governance	24%		

Disclaimer: AWS Certification exams are designed to make pass/fail decisions based on the total exam score. Section level results are designed to provide direction on areas where a candidate may be weak. Candidates should exercise caution when interpreting the above section level score information as it is less reliable than the total exam score and not intended to guide future test performance.
